

Global Electronics Distribution, Trusted Worldwide

Your trusted partner in global mobile technology
distribution since 2005

About Us

Wireless Now Inc. is a premier global supplier of smartphones and mobile electronics headquartered in Mississauga, Ontario, Canada.

With over 20 years of industry experience, we've built our reputation on reliability, integrity, and exceptional service for our B2B partners worldwide.

Our Global Reach

40+

Countries Served

Spanning six continents with reliable distribution networks

2,000+

Active Clients

Trusted by retailers and resellers worldwide

\$120M

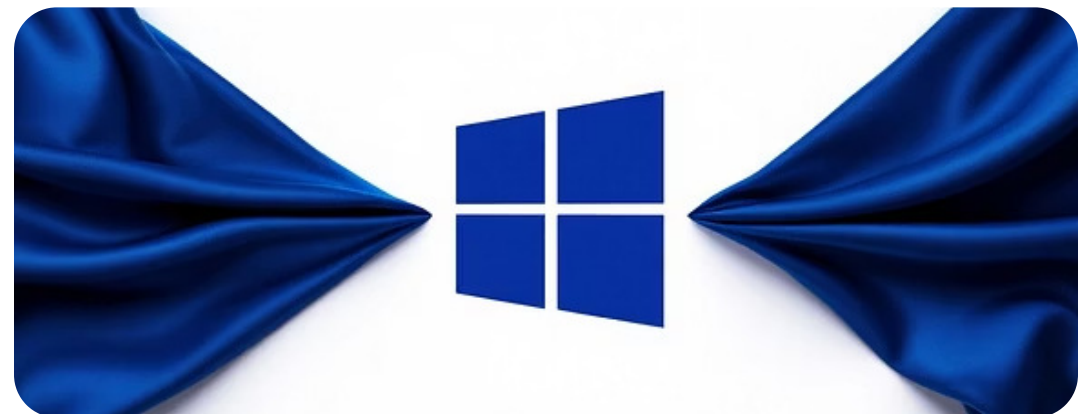

Annual Revenue

Consistent growth year-over-year

Our dedicated team ensures seamless transactions across borders, with multilingual support and localized business solutions.

Premium Brand Partnerships

We distribute genuine products from the world's leading mobile technology brands:

Authorized distributor with direct manufacturer relationships ensuring authentic products and competitive pricing.

Operations & Logistics Excellence

Order Processing

Advanced inventory management system with real-time stock updates

Fulfillment

Streamlined warehouse operations with 99.8% accuracy rate

Shipping

Same-day shipping via premium carriers including FedEx and DHL

Support

Dedicated account managers for seamless post-sale assistance

Why Choose Wireless Now Inc.

Competitive Pricing

Volume-based discounts and flexible payment terms tailored to your business needs

Product Authenticity

100% genuine products with full manufacturer warranties

Responsive Support

Dedicated account managers with industry expertise

Client Success Stories

"Wireless Now has been instrumental in our expansion across Eastern Europe. Their logistics expertise and consistent product quality have made them our preferred supplier for three consecutive years."

— Maria Kowalski, Purchasing Director, TechRetail Group

Join the growing network of satisfied partners who rely on our expertise to power their electronics retail operations.

Our Global Reach

North American Hub

Centralized distribution center optimized for rapid processing and inventory management

Premium Carriers

Exclusive partnerships with FedEx and DHL Express ensuring reliable international delivery

Advanced Tracking

Paperless pick and put-away processes with real-time visibility throughout the supply chain

Our streamlined logistics network enables **same-day shipping** for orders finalized during business hours, delivering premium mobile electronics to retailers across **six continents** with industry-leading efficiency.

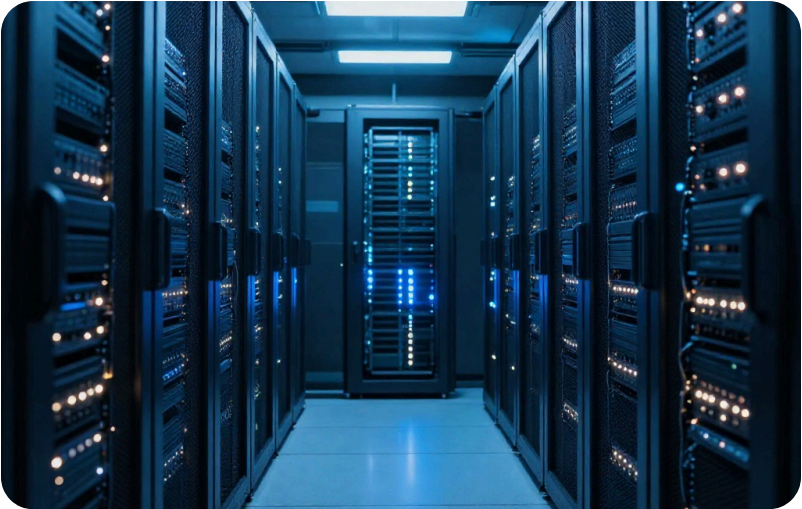

Canada's Sovereign AI Infrastructure Integrator

We design and deliver sovereign AI capability for enterprise, government, defence and research industries — from desktop workstations to rack-scale AI factories. Leading technology partners and complete solutions, architected, deployed, and operated by one Canadian organization.

01 · WHY US

Canadian Sovereign AI Infrastructure

- **Canadian Sovereign AI Infrastructure**
Canadian-owned and operated, focused on secure, sovereign AI infrastructure for government, defence, critical infrastructure, healthcare, and regulated industries.
- **Accelerated Procurement**
Preferred access to engineering resources and supply chain enables significantly faster procurement and deployment — particularly during periods of constrained GPU availability.
- **Strategic Technology Partnerships**
Direct access to complete AI infrastructure portfolios, including current-generation systems and future platform roadmaps.
- **Competitive Enterprise Pricing**
Preferred partner pricing enables highly competitive pricing on complete AI infrastructure solutions, from individual GPU workstations to rack-scale AI factories.
- **Solution Architecture Included**
We don't simply sell servers. We design complete AI environments — networking, storage, cooling, rack integration, Kubernetes, AI software stacks, and operational readiness.

Rack-Scale AI Factories

Liquid Cooling

02 · ONE TRUSTED PARTNER

Strategy Through Operations

Future-Ready Infrastructure

Systems architected today with clear migration paths to next-generation platforms — protecting long-term investments.

Capabilities & Portfolio

Most companies can sell servers. Few can design an AI Factory. Even fewer can help customers decide which AI Factory they actually need.

▪ **AI Infrastructure**

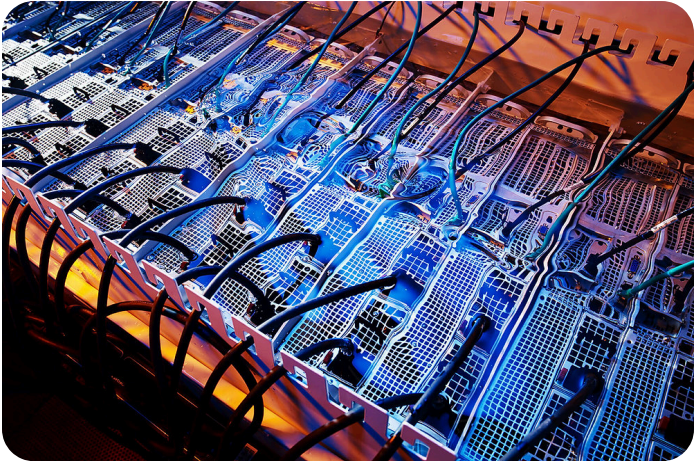

AI Strategy & Advisory, AI Factory Architecture, GPU workstations through rack-scale deployments.

▪ **AI Software**

Private AI / Enterprise LLMs, Retrieval-Augmented Generation (RAG), and complete AI software stacks.

▪ **AI Engineering**

Agentic AI & multi-agent systems, MLOps, and managed AI operations delivered by one team.

THE INFRASTRUCTURE BEHIND
Canada's Next Generation of AI

Human-Centered | System-Optimized

- AI Strategy & Advisory
- Private & Hybrid AI Cloud
- Sovereign AI & Zero Trust
- Agentic AI & Multi-Agent Systems
- Private AI / Enterprise LLMs
- MLOps & Managed AI
- Computer Vision
- Retrieval-Augmented Generation (RAG)

Faster Access, Complete Design

- **Accelerated Lead Times**
We work directly with engineering and manufacturing teams to minimize procurement delays and gain access to enterprise AI infrastructure as rapidly as market conditions allow.
- **Competitive Pricing**
Highly competitive pricing through our strategic technology partnerships.
- **Complete Rack-Scale AI Factory Design**
End-to-end architecture rather than individual server procurement.
- **Reference Architectures**
Direct access to latest reference architectures and end-to-end deployment services.
